

BUILD MACHESNEY

A Blueprint for the Future

Alpine Road West Service Drive Reconstruction Construction Update #8 October 2, 2015

Next Week (10/5 – 10/9)

- The Contractor will continue to prepare driveways for pavement. Each driveway apron will receive 2" of asphalt pavement. Driveway paving should be completed by the end of the week, weather permitting.
- The Contractor will continue with restoration after the roadway and driveways have been paved. Restoration will consist of topsoil, seed and erosion control blanket. A watering guide will be provided in an upcoming construction update after restoration has been completed.
- Looking ahead, the Contractor will begin to re-install the permanent mailboxes within the next couple of weeks as they complete restoration. As we mentioned at the construction meeting, if you would like to purchase a new mailbox we will install it for you. So, if you desire to replace your mailbox you should plan to purchase a new one (and mounting post, if needed) in the next week. Mail will continue to be delivered to your temporary mailbox until all mailboxes have been installed. You will be notified of the "switch-over" date in an upcoming construction update.

Please do not hesitate to contact Nick Arps of McMahon at 636-9590 with any questions.

Thank you for your continued patience.
