

IL 173-Alpine Road to Forest Hills Road

The Contractor has indicated that crack sealing operations will commence on IL 173 between Alpine and Forest Hills Road during the week of the 26th. The crack sealing work will be completed as a moving operation, so only temporary lane closures are anticipated. As a reminder, traffic control will remain in place along IL 173 generally between Perryville Road and Forest Hills Road for the duration of the construction season. Traffic control will also remain in place within certain turn lanes of Forest Hills and Perryville Roads.

IL 173-East of Perryville

The Contractor will finish the remainder of the pavement for the eastbound lanes and turn lanes during the week of the 26th. The Contractor will be constructing the curb and gutter improvements throughout the week and will begin to grade against the new curb and gutter as well. The Contractor will also begin to construct the remainder of the traffic signals at the Mitchell Road and IL 173 intersections. Finally, the Contractor will continue with the final grading, seeding and mulching operations along the north side of IL 173 east of Mitchell Road.

Forest Hills and Perryville Roads

There are a few panels of concrete that have cracked and require replacement. Additionally, there is one last piece of temporary asphalt pavement at the intersection of Perryville Road and IL 173 that needs to be removed and replaced with permanent concrete pavement. This work is scheduled for early in the week, and traffic control will once again be present along Perryville Road and Forest Hills Road during the week of the 26th.
