

BUILD MACHESNEY

A Blueprint for the Future

Scott Ln & Heron Dr Improvements Construction Update #5 July 8, 2016

Week of July 11:

- The Contractor will continue to install large diameter storm sewer on Scott Ln towards Heron Drive and on Heron Drive from Scott Lane to Mildred. The Contractor will notify residents about limited access in and out of their drives. The storm sewer work will require use of most of the roadway. Traffic will be limited in getting around the construction on Scott and Heron
- The Contractor will have a second crew on site to install storm sewer across Scott Lane at Bunting and continuing west on Bunting. Traffic will not be able to get around the construction during working hours.
- On Monday July 11 the contractor will be shutting off the water at Scott and Bunting as part of the storm sewer construction. Residents that will be affected on Scott Lane will be notified by North Park Public Water District on Friday July 8.
- Pipe and manholes will continue to be delivered to the site. These materials will be stored within the Village right of ways along the roadways. They will make it a bit more difficult to drive through the construction area.
- It is possible that at the end of the week the Contractor may begin coring out Scott Lane near Roosevelt Road. During this process residents will not have access in or out of their drive when the work is in front of their house. The contractor will notify residents as they are affected and allow them to move their car if needed. During this time the driveways will be noticeably steeper. Please exercise caution when driving in and out of your driveway.
- In the event that construction activities change, the Contractor will notify residents of any activities affecting their property.
- Traffic control signs and barricades have been installed. Please be aware that the placement of the barricades may change from day to day as construction progresses.

Please continue to exercise caution and drive **SLOWLY** through and around the construction zone. Thank you for your cooperation.
