

## **BUILD MACHESNEY**

*A Blueprint for the Future*

---

### **Prairie & Dorothea Improvements July 21, 2016**

We are pleased to advise that the Village of Machesney Park will be reconstructing and adding drainage improvements to Prairie Lane and Dorothea Avenue in the upcoming months. The Village will be hosting an informational meeting in a few weeks, and you will receive a postcard invitation in the mail from the Village in the next week.

Before the major reconstruction work can begin, NICOR must first relocate the gas mains and services (the "service" is the pipe that connects your home to the gas main). NICOR advises that they will begin work on or about July 21, and they expect their work to take 2-3 weeks to complete. NICOR (or its contractor) will coordinate directly with each affected resident when it comes time to connect your home to the new service line. ComEd will also be relocating four poles along the north side of Prairie Lane.

We look forward to seeing you at the informational meeting, and working with you during the reconstruction effort. In the mean time, please feel free to contact Jim Kroeplin or Chris Dopkins of McMahon Associates (who functions as the Village Engineer) at (815) 636-9590 with any questions.
