

BUILD MACHESNEY

A Blueprint for the Future

Hawksview Improvements Construction Update #8A October 28, 2020

PAVING BEGINS TOMORROW (October 29th)!!!

- Paving is scheduled to begin tomorrow, and the Contractor estimates that it will take 2-3 days to complete the paving operations. If the Contractor is unable to finish paving on Friday, operations will resume on Monday. There will be a short period of time (approximately 23-30 minutes) where you will not have access to your driveway when the road is being paved. The Contractor will have personnel on site to direct traffic and to let you know when it's OK to drive upon the new pavement. We ask that you please:
 - **Refrain from parking in the street during working hours so that the contractor is able get the paving done as quickly as possible.**
 - Try to avoid driving through the area where paving operations are occurring as that will help speed up the process and will help keep everyone safe.
 - Please do not turn your wheels on warm pavement when your vehicle is stationary. Make sure that your vehicle is moving as you are making a turn otherwise the turning movement of the tires can "ravel" the pavement surface.
- Paving will begin at the intersection of Hawks View and Coopers Hawk and will then proceed north of Coopers Hawk. The Paving Contractor will then decide how to proceed through the remainder of the subdivision.
- There are two "lifts" of pavement that will be placed. The Paving Contractor is hoping to have the first lift of pavement complete by the end of Thursday, and then place the final surface course on Friday. Again, operations will resume Monday if the Contractor is unable to complete paving on Friday.

Contractor: Northern Illinois Service Company
